Trans. of mono. Elektroradioavtomatika; Elementy
Avtomaticheskikh i Vychislitel'nykh Ustroystv Aviat-
sionnykh Radiostanovok. Moscow, 1959, 423p.

This book is a training manual for the course "Electro-
Radio Automation," which is included in the educational
program of the radio-engineering faculties of the higher
educational institutions for aeronautics. The material
is based on a series of lectures given from 1946 to
1958 in the department of radio engineering of the
S. Ordzhonikidze Moscow Aviation Institute. The study
of the manual should furnish the student with the knowl-
edge required to understand the operation of the auto-
matic and computing devices used in aircraft radars and
the basic principles governing their design. (Author)
